PROJECT EXPERIENCE

Qlean Quotes — Housekeeping Application

- Developed a web application that enables users to create an account, provide information of square feet, number of rooms and number of bathrooms, choose deep or average cleaning options, calculate the price based on provided information and finally pay for the house keeping service. User can edit profile, provide phone number and address to schedule service.
- Spring Security- ensures secure user login and user information storage in a User Profile.
- Square API Integration- connects popular Square service to pay for quotes directly on the website.
- Personally created Spring MVC pattern, Error Handling, connected users and quotes to MySQL, UI/UX designs, built-in Unit Testing (JUnit).

Tech Jobs — Job Searching Application

- Developed a web application that enables users to browse, search, add, and edit tech job listings.
- Built using Java, Spring Boot, and Thymeleaf following the MVC pattern.
- Personally contributed to implementing the ORM functionality using Spring Data.

WORK EXPERIENCE

Mentor — Atades, Zaragoza/ Spain

October 2017 - August 2018

- Collaborated on a large team of dedicated individuals at Leisure and Entertainment Club Los Tigres, which aimed to enhance the quality of life for people with intellectual disabilities. The team consisted of over 30 members, and as part of my role, I regularly mentored and provided support to a diverse group disabled students, offering guidance and assistance to help them participate in various activities such as sports, theater, dance, trips and camping.
